

## COURSE SYLLABUS

---

### CHEM 151 v1 – General Chemistry I

#### **Self-Paced Course - Web Based Format Option**

Session begins on the 1<sup>st</sup> day of enrollment month and ends on the last day of the 6<sup>th</sup> month

---

#### Instructor Information

**Instructor Name:**        **Jeremy Durelle**

**Contact Information:** For questions, comments, or concerns please contact the Self-Paced Degree Program office:

Telephone: 563-425-5200 or 1-800-553-4150

E-mail:        [selfpaced@uiu.edu](mailto:selfpaced@uiu.edu)

Address:      Upper Iowa University, PO Box 1857, Fayette, IA 52142

---

#### Course Description

**Semester Credits:** 3 semester credits

**Catalog Course Description:** This course introduces students to fundamental concepts in chemistry by taking an atoms first approach. Atomic structure is introduced early and is used as the basis for discussion of periodic trends of the elements, compounds and bonding, and chemical reactions. Laboratory experiments correlate with lecture material.

**Recommended:** MATH 105 or a strong high school math background.

**Credit Hours:** As a requirement of HLC Accreditation, all UIU courses, regardless of meeting schedule or instructional mode, follow the Federal Credit Hour Definition. As such, each credit hour earned at UIU is equivalent to a minimum of 45 hours of student engagement.

For more information on how specific instructional modes meet this requirement, please see *UIU's Policy Guidelines for Instructional Time Expectations:* [UIU Policies](#).

---

## Course Materials

It is the student's responsibility to make sure she/he has access to all required course materials by the start of the session.

### Required Textbooks

Chemistry: Atoms First

Authors: Julia Burdge & Jason Overby

Edition: 5th

Publisher: McGraw-Hill

ISBN: 9781266259272

### Recommended Resources

Materials provided by the instructor

UIU Tutor Center

- Email: [tutorcenter@uiu.edu](mailto:tutorcenter@uiu.edu)
- Phone: (563) 425-5272

UIU Academic Success

- Email: [academicsuccess@uiu.edu](mailto:academicsuccess@uiu.edu)
- Phone: (563) 425-5264

### Ordering Textbooks

Purchase your textbook through the online university bookstore, [BNC Virtual](#), or by phone at (800) 325-3252.

---

## Course Outcomes

Upon completion of this course, students will ...

- Students will be able to apply scientific method and evidence-based reasoning as appropriate.
- Students will be able to classify matter and identify the changes it may undergo.
- Students will be able to express, apply, and interpret measurements in terms of SI units and associated prefixes.
- Students will be able to analyze precision and accuracy in measurements.
- Students will be able to solve problems through the application of conversion factors.
- Students will be able to apply properties of subatomic particles and atoms to explain properties of matter.
- Students will be able to identify basic features of the periodic table.
- Students will be able to rationalize the concept of a mole and apply the mole concept to chemical equations, stoichiometry, and solution concentration.
- Students will be able to apply appropriate concepts to describe the modern view of atomic structure.
- Students will be able to use the periodic table to determine electron configuration and will use electron configuration to explain periodic trends.
- Students will be able to distinguish between ionic and covalent bonding and will represent each by applying Lewis Theory. Given names or formulas students will be able to provide formulas or names at a level appropriate for General Chemistry for ionic compounds, molecular compounds, acids, hydrates, and bases.
- Students will be able to determine mass percent composition from chemical formulas and use mass percent composition data to determine empirical and molecular formulas.
- Students will be able to analyze properties of covalent bonds.
- Students will be able to represent molecular geometry at a level appropriate for General Chemistry using VSEPR method.
- Students will be able to apply valence bond theory and molecular orbital theory at a level appropriate for General Chemistry to bonding in molecules.
- Students will be able to apply the law of conservation of mass to chemical equations.
- Students will be able to identify the type of reaction and predict products for neutralization, precipitation, and REDOX reactions.

- Students will be able to practice safety and etiquette and will apply proper measurement techniques in the laboratory.
- Students will be able to appraise the role of chemistry in their everyday lives and its impacts on the decisions they make as responsible global citizens.

---

## Course Requirements and Grading Criteria

### Course Requirements

1. Review the **entire** course syllabus before beginning the course. Be sure you understand the course procedures and objectives. Procedures do change, so please review **ALL** requirements and policies even if this is not your first course including, but not limited to, administrative withdrawal. Your course status will be affected if policies are not followed.
2. Students who develop a regular time schedule and set goals for unit completion are most successful in completing courses within a specific timeframe.
3. The feedback you receive from the instructor of your work is **critical** to your success on subsequent lessons. These comments allow you to improve and modify the next units if necessary.
4. Assignments are submitted using uiuLearn. Please complete all assignments and modules in order.
5. If the information in your syllabus is not clear or if units are not graded within a reasonable period of time, please contact your instructor using uiuLearn's email tool, if that doesn't work contact the Self-Paced Program office. We would like the opportunity to address concerns, however, we may not know unless we hear from YOU!
6. ALWAYS keep a copy of your completed work when submitting it for grading.

### Grading Criteria

Activity	Percent Weight
Unit Assignments	10% (10 assignments – 1% each)
Unit Lab Activities	20% (10 activities – 1% each)
Midterm Exam #1	20%
Midterm Exam #2	20%
Final Exam	30%

## Grading Scale

Letter Grade	Percent
A	$\geq 90\%$
A-	85% - 89.9%
B+	80% - 84.9%
B	75% - 79.9%
B-	70% - 74.9%
C+	65% - 69.9%
C	60% - 64.9%
C-	55% - 59.9%
D+	50% - 54.9%
D	45% - 49.9%
D-	40% - 44.9%
F	$< 40\%$

## Grades and Feedback

This syllabus contains all assignments necessary for completing your self-paced course. Submit your completed assignments via uiuLearn.

If you need academic assistance with the course, please feel free to contact the Self-Paced Degree Program office.

To protect the integrity of the final assessment/exam, you only receive your final grade on the exam; you do not receive any feedback on the answers to the exam questions. The answers

to the questions on the exam are not shared with students. Please remember to stay academically honest.

## **Turnitin**

Turnitin is a tool for both teachers and students to ensure academic integrity by checking the originality of submitted papers to avoid issues of plagiarism and academic dishonesty. Students should be aware that Turnitin scans submitted work and compares it to ALL other sources on file.

## **Extension Policy**

Students will be allowed to request an extension and receive an 'X' (extension grade) at the end of their original six-month enrollment period if:

- A minimum of one assignment has been received for grading per guidelines **AND**
- All course units and exams are not completed and submitted **OR**
- A course withdrawal has not been initiated.

Note: The fee for a self-paced extension is \$99 per course. The request for an extension must be submitted no earlier than one month before the end of the course and no later than a week before the end of the course.

### Extension grade details

- When the extension is granted and an "X" grade is issued, the student will receive a four-month enrollment period to complete the course.
- Students do not have the option to withdraw from a course after the initial six-month enrollment period.
- An 'X' grade posted to the student's official record will be replaced with a final letter grade; however, the extension will remain on the official transcript as a notation.
- If the course is not completed by the end of the extension period, the instructor will assign a final grade (A-F) based on work completed in relation to the total course requirements.
- If credit is not earned by the end of the extension period, students can re-

enroll and repeat the entire course for credit.

Note: Students are not reported as enrolled during the extension period and are not eligible for student loan deferment. No more than one extension will be granted.

---

## Course Schedule

### Unit 1

<b>Matter</b>	
	Measurements
	Chemical & Physical Properties
	Matter Assignment
	Pivot Lab: Identify a Liquid using Density

### Unit 2

<b>Atoms, Molecules, &amp; Ions</b>	
	Atomic Theory
	Nomenclature
	Chemical Formulae
	Atoms Assignment
	Pivot Lab: Atomic Mass and Isotopes

### Unit 3

<b>Aqueous Reactions</b>	
	Chemical Equations
	Stoichiometry
	Acids & Bases
	Redox
	Solubility
	Aqueous Reactions Assignment
	Pivot Lab: Limiting Reactants in Double Replacement Reactions

### Unit 4

<b>Thermochemistry</b>	
	Calorimetry
	Reaction Enthalpy
	Thermochemistry Assignment
	Pivot Lab: Enthalpy of Reaction

## MIDTERM EXAM #1

### Unit 5

<b>Quantum Chemistry</b>	
	Atomic Spectra
	Electron Configurations
	Orbital Shapes
	Quantum Chemistry Assignment
	Pivot Lab: Using Light to Identify Elements

### Unit 6

<b>Periodic Trends</b>	
	Effective Nuclear Charge
	Atomic Radius
	Ionization Energy, Electron Affinity, & Electronegativity
	Periodic Trends Assignment
	Pivot Lab: Introduction to Periodic Trends

### Unit 7

<b>Chemical Bonding</b>	
	Ionic & Covalent Bonds
	Lewis Structures
	VSEPR Theory
	Hybridization & Molecular Orbital Theories
	Chemical Bonding Assignment

<b>Chemical Bonding</b>	
	Pivot Lab: Molecular Shapes

## MIDTERM EXAM #2

### Unit 8

<b>Gases</b>	
	Ideal Gas Law
	Kinetic Theory
	Gases Assignment
	Pivot Lab: Molar Mass of Gas

### Unit 9

<b>Intermolecular Forces</b>	
	Vapor Pressure
	Intermolecular Forces
	Intermolecular Forces Assignment
	Pivot Lab: Evaporation & Intermolecular Forces

### Unit 10

<b>Solutions</b>	
	Concentrations
	Colligative Properties
	Solutions Assignment
	Pivot Lab: Solutions & Solubility Curves

---

## Course Expectations

### Late Work

Late work is not accepted without obtaining an official extension ('X' grade) from the University. See the syllabus policy on Extensions for details.

### Professional Writing and Speaking Guidelines

Communications in class and online should follow the Student Conduct and Discipline, Respect for the University Environment, and Code of Student Responsibility in the [Student Handbook](#) (pg. 20 and 21). Respect the opinions of others using appropriate language and communications.

---

## University Policies

### **Withdrawal (W)**

If a student decides to withdraw from a course before the end of an enrollment period, the student's charges, financial aid, tuition assistance, and/or veteran benefits could be affected. All students should consult with the Business Office and Financial Aid Office to understand the financial impact of withdrawing prior to initiating the withdrawal process.

Tuition adjustments are independent from academic and financial aid deadlines. Upon receiving a request for withdrawal, using the number of lessons submitted as compared to the total due, a refund of tuition is made according to the following guideline.

On or before the first day of the enrollment period\* 100%

After the first lesson through 10% of the enrollment period 90%

After the first 10% through the first 25% of the enrollment period 50%

After the first 25% of the enrollment period 0%

\*Enrollment is measured by the number of assignments to be submitted during a six-month period of time, as determined by the University, during which semester credits are earned toward graduation. The refund/repayments shall be calculated using the percentages noted above as determined using the number of assignments completed and the number of assignments yet to be submitted.

For example, if a student submitted 2 of 17 assignments, they completed 11.76% of the class assignments. The student would be refunded 50% of the tuition cost.

For students from Wisconsin, Maryland, Georgia, Oregon, or Arizona, state laws apply. For students enrolled through the [cpacredits.com](#) program, no refund is allowed after the first two weeks.

Students who withdraw from a course prior to submitting the first assignment, or who are administratively withdrawn for non-submission of assignments, will be charged an administrative fee of \$99.

Course withdrawal may impact financial aid eligibility. A financial aid counselor is available to discuss this decision.

Upper Iowa University is required to use a pro rata schedule to determine the amount of Title IV aid the student has earned at the time of withdrawal. If financial aid funds have been released to the student because of a credit balance on the student's account at Upper Iowa University, the student may be required to repay some or all of the amount released to the student. This policy is subject to federal regulations. Contact the Financial Aid Office for details.

Withdrawing from a course in progress may result in significant student account charges. Consult with the Business Office before withdrawing. For more information on financial aid implications, go to [uiu.edu/financialaid](http://uiu.edu/financialaid).

### **Administrative Withdrawal (AW)**

A grade of AW (administrative withdrawal) is recorded for any course from which a student is administratively withdrawn. **At least one complete assignment/unit must be received and verified by the instructor within the first 60 days of the enrollment period or the student will be administratively withdrawn from the course.** Students who are administratively withdrawn for non-submission of assignments, will be charged an administrative fee of \$99. Non-Attendance (NA): Never attended grades are not applicable to the Self-Paced Degree Program.

### **Academic Accommodations**

It is the policy of Upper Iowa University to ensure equal access to educational and co-curricular activities to students with disabilities as mandated by the Americans with Disabilities Act Amendments Act (ADAAA) and Section 504 of the Rehabilitation Act of 1973. A student seeking accommodations should contact the Director of Student Accessibility Services as early in the session as possible. In order to receive accommodations, students are required to disclose their disability to the Director by completing an application for services that can be found on the Student Accessibility Webpage. In addition to the application packet, the student

is required to submit supporting documentation. Submit these to the Student Accessibility Services Office either in person or by email/Fax. A brief interview, in-person, by phone or virtually, with the Director will confirm or deny the accommodations requested. The Student Accessibility Services Office will email accommodation letters to the appropriate professor, the student, and the student's advisor. Additionally, students should work cooperatively with their instructors throughout the session to make sure that their accommodations are appropriate and effective.

Upper Iowa University (UIU) provides closed captioning/transcriptions in acknowledgment of the Americans Disability Act, Rehabilitation Act, and various state laws. The information displayed is computer generated and not reviewed before being published. UIU makes no representations or warranties and expressly disclaims any responsibility or liability with respect to any errors or omissions in, or the accuracy, reliability, timeliness, or completeness of, any information that appears in a closed caption or transcript.

Contact the Director at (563) 425-5949, [accessibility@uiu.edu](mailto:accessibility@uiu.edu) or stop by the office on the 2nd floor of the Student Center, Office of Student Life, Room 229.

**Emergency Directives:** (Fire, Natural Disaster, Threat on campus, etc.)

In accordance with Upper Iowa University's emergency management plan, any student that requires assistance in the event of an emergency (Fire, natural disaster, threat on campus) is responsible for notifying their instructor of the need for assistance. (Evacuation, and/or indoor safety protocols) This information will be held confidential and only needed in the unlikely event that there is an emergency.
